Boston, Jan. 13.—North Butte opened weak or selling by a house with New York connections. The demand was good, however, and considerable stock was wanted at 89. Just at the close it rallied easily to 89%. Butte Coalition was also weak but we do not think the selling has any significance. Wyandotte was very active around 3½ and the floating stock is being rapidly cleaned up. Scattered selling bridge broke Superior Copper two points, with a slight rally. Traders started up Elm river in sympathy with the advance in Wyandotte, but did not carry the movement far. The whole market is resting at present and has no tendency either way.

Sioux Con. Interests Evidently
Getting Ready to Place
Shares in East.

There is certainly something brewing in Sioux Consolidated. It looks as though the management of the company was about to follow the lead of Colorado and establish a market for its shares in the same amount per share being of the stock and every offering of a large block, anything from Loop shares were lavolved in the trading and some than the containing of the stock and every offering of a large block, anything from Loop shares were lavolved in the trading and is certainly looked as though the means that some of the look shares were lavolved in the trading and is certainly looked as though the floating stock. That must be nearly accomplished now and, if such proves to be the case, the oracles are banking that it will be only a matter of days, most likely, until the rews comes that some of the look of the New York curb. CROWN POINT IS READY

TO RESUME OPERATIONS

While officials of the company declare that no action has yet been taken in the matter, it is positively asserted in well posted circles at camp that work is to be resumed on the Crown Point company's property by the Knight interests at once. John Roundy, general superintendent of all the Knight mines in the Tintic district, is declared to have said that he had or is declared to he consideration would amount to a good from with supplies and started a vigor-ous campaign of development.

Mr. Lewis is expected to reach camp from New York soon. Colonel William A. Farish, the noted mining engineer, who assisted Mr. Lewis in the district. A new corporation will be formed in the near future, and, it is said, will have the strongest kind of backing.

The making of blister copper in the Fink smelting furnace was not attempted yesterday as contemplated. The installation of the automatic feeding devices had not been completed and things were not ready. However, the furnace is working every day turning out copper matte that runs as high as 70 to 80 per cent copper, and the inventor and patentee of the process says there is absolutely no question but that he can make blister when he gets

ready. That, he hopes, will be by the end of the present week.

A number of smelter experts were shown the character of the matte that is being turned out yesterday, and with one accord turned out yesterday, and with one accord they pronounced it the finest product of the kind it would be possible to make anywhere or under any conditions. The real news on this apparently absolutely sensational process will be forthcoming in a short time, now, and the thousands of people in the mining and smelting world who have begun to sit up and take notice, will be supplied with the character of the information they are now yearning for. ### MINING STOCK EXCHANGE.

Sioux Consolidated Is the Feature of the Day's Trading.

Over 28,600 shares of Sioux Consolidated stock was involved in the trading on 'change yesterday, and while it was evident that every effort was being made to hold the price down, it moved up over 5c a share. It was the feature of the day and there was much speculation to know what it all meant. Colorado is also gaining a little day by day and a demand has developed for Crown Point that has been absolutely lacking for some time past. The rest of the market is holding steady, with signs of improvement here and there. During the two regular and open board calls a total of 144,476 shares of stock, with a selling value of \$77,561.37, changed hands. #### EIGHTY FEET THROUGH; FIVE FEET OF \$50 ORE

Mining Notes.

At a point in the north drift at the 200-foot level of the Harris lease on the property of the Seven Troughs Mining company, where the vein is about five feet wide the men ran through a rib of ore silver was up to 52%c per ounce yesterday morning.

Silver was up to 52%c per ounce yesterday and still higher prices are being predicted for the white metal.

Ten carloads of ore from Utah mines and one from Nevada were released from the Taylor & Brunton sampling works yesterday morning.

Nothing was done at the annual meeting of the Alice Silver Mining company, held here Monday, but the election of officers and directors for the ensuing year. The Alice is now one of the subsidiary holdings of Amalgamated Copper. John D. Ryan is president; William D. Thornton, vice president; William D. Thornton, vice president; J. W. Allen, secretary and treasurer; A. C. Carson and J. T. Richards are the other directors, while Ray S. Allen is designated as assistant secretary.

WITH NEW SMELTING CO.

Denver, Colo., Jan. 13.-The Republican today says: Interests identified with the International Smelting & Refining company will hold a meeting within the next few days for the purpose of organization. There will be fifteen directors representing There will be fifteen directors representing banking, business and mining interests. Dennis Sheedy, who recently tendered his resignation as a member of the board of directors and executive committee of the American Smelting & Refining company, will probably go on the board. One other American Smelting director is also expected to join the forces of the new company.

pany.
It is stated that at least two smelting and refining plants will be erected in Colorado, besides others in the various western mining districts. The construction of the new plants will be pushed forward as rapidly as possible and will be completed before the close of the year.

#### IMPERIAL COMPANY FILES INCORPORATION ARTICLES

The Imperial Gold & Copper Mining company of Denver, Colo., qualified to do business in Utah yesterday by filing cer-tified copies of the articles of incorporation with the secretary of state. William C. Hall is designated as the agent in Sal Lake. The company is incorporated for \$5,000,000 in shares of \$10 each. Loring R. Loomis is president and George H. Johnson secretary. The articles of incorporation provide for offices at Denver, Frisco and Sait Lake City, Utah.

and Sait Lake City, Utah.

The Imperial company owns a large group of claims adjoining the Cactus. It was originally promoted by A. B. Lewis and a great deal of work has been done. Lots of fine ore has been shipped from the property and now that it looks as though internal troubles had been adjusted, a new start has probably been ordered.
